

## **STATEMENT OF PURPOSE**

Name: LalithaShankari

Skpe ID: Latiska06

Programme: Msc in International Accounting, Management Control & Auditing

ESC Rennes

### **INTRODUCTION**

Accounting is a hot domain with number of accounting majors coming up worldwide. This field has brought about a whole new level of social interest by acting as gatekeepers and custodians. I have cultivated a strong liking towards this field which indeed has become very clear that in order to develop a successful career in the modern business environment i feel it is necessary for me to upgrade myself with advanced training in accounting and related subjects. This has been a driving force for me to pursue my master's programme specialising in the field of accounting. I hope to get a refined knowledge in accounting along with understanding my international perspective well.

### **EDUCATIONAL BACKGROUND**

I majored in the department of commerce from PSG COLLEGE OF ARTS AND SCIENCE ( GPA 8.9/10) in India. I pursued an add-on course PG DIPLOMA IN BANKING AND INSURANCE (GPA 8.5/10) from the same college. I chose this major due to the belief that finance is the language for practical business life as well as professional development. In relevance to this I have studied financial, corporate and management accounting along with principles of management. I have managed to perform well in the areas.

My department has offered a comprehensive knowledge in various other fields such as mathematics, business communication, law, marketing and computerised accounting. I even took up few other additional courses which i felt was important to handle the corporate business world like organisational behaviour, human resource management, entrepreneurship development & project management, general psychology and soft skills.

My rooting interest in this field has gone stronger over these years while working as Accounts executive in Vanenburg Software a Netherlands based company located in India. This desire has mushroomed within me to take up a more challenging and innovative method of study in this field which urged me to take up Chartered accountancy course. I have cleared my foundation, intermediate Group 1 exams and completed my article ship under a well established auditor. In the midst of this career I felt I need to take a more refined direction that will open up new and promising possibilities.

It has become more evident that pursuing my masters in these areas will bring about a power pact entry into my accountancy programme which will help me to create a milestone in my career.

### **MOTIVATION TO STUDY MASTERS IN ACCOUNTING AND FINANCE.**

The financial industry is the heart of every single transaction that take place anywhere in the world. I find it fascinating to apply the exact same ideas to study and predict the outcomes of large scale financial systems. I believe this will be a challenging experience where i can learn new skills. The intension of taking up masters in overseas is mainly to widen the scope of my

knowledge in international accounting. France is third largest educational hub in the world with the benefit of internship programme. Rennes School of Business stands unique in its academic excellence with triple accreditations (EQUIS , AACSB , AMBA).The placement opportunities to the students of Rennes are innumerable. The quality of business education provided by the university makes it the most sort after business schools by global companies for recruitment. Your university provides the best programme specialising in accounting, management control and auditing. This unique programme is a true microcosm of international business world and thus the ideal place to pursue a business based education. I am truly excited in taking up a career in accounting that is highly dynamic.

Hence with a strong desire to succeed professionally through gaining knowledge and research experience I would like to be a part of your masters programme specialising in International accounting , management control and auditing I genuinely feel that my talent will be put to optimal use thereby helping me to get closer to my dreams and aspirations.
